

JAWAHAR GANESH RAJA

FULL STACK DEVELOPER

Email :asjawahartsy@gmail.com

+91 8508601842

SUMMARY

Full-Stack Developer (MEAN) & Team Lead with a proven track record in designing and deploying scalable web applications. Expertise in MongoDB, Express.js, Angular, and Node.js, with strong skills in API development, cloud integration, and DevOps. Adept at leading teams, driving Agile workflows, and delivering high-performance, user-centric solutions. Passionate about optimizing code, enhancing user experience, and implementing best practices for seamless development.

TECHNICAL SKILLS

Angular	AWS (EC2, S3), Azure (VM), Hostinger
Node JS , Type Script	Git, Bitbucket
MongoDB , PostgreSQL	Payment Integration (Stripe, Razorpay), Webhook

PROFESSIONAL EXPERIENCE

ShineLogics Informatics Pvt Ltd

Feb 2021 - Present

- Led the development of a scalable wellness platform, improving system efficiency
- Streamlined payment integration, ensuring 100% secure transactions and automated payouts.
- Improved API performance by implementing caching & load balancing, achieving faster response times.
- Integrated third-party APIs (AWS, Firebase), reducing development time
- Enhanced UI/UX using Angular Material & Tailwind CSS, leading increase in user engagement

EDUCATION

Bachelor of Engineering (B.E)

- Dr. Sivanthi Aditanar College of Engineering, Affiliated to Anna University, during academic year 2015-2019 with 69%.

PROJECTS

1. Articul8 - Data connector API

Role: Backend Developer - Data Connector APIs

Key Contributions:

- Developed scalable APIs using Python & FastAPI.
- Integrated Databricks and Articul8 for seamless data exchange.
- Optimized large-scale data processing and system performance.
- Worked with RESTful APIs, async programming, and Azure cloud solutions

Tech Stack: Python | FastAPI | Databricks | Azure

2. Elevate Pet Health

Role: Team Lead & Full-Stack Developer.

Key Contributions:

- Built Angular 18 frontend and Java backend.
- Implemented Stripe for subscriptions and payments.
- Ensured optimized, testable code and smooth deployments.

Tech Stack: Angular 18 | Java | PostgreSQL | AWS (EC2, S3) | Visual Studio Code

3. Phibro animal health

Role: Backend Developer - Data Intergration APIs

Key Contributions:

- Integrated Zoho CRM and Databricks using Node.js.
- Automated daily data uploads and API interactions.
- Processed and stored log files in Azure Blob Storage.
- Optimized customer, sales, and invoice management workflows

Tech Stack: Node.js | Zoho CRM | Databricks | Azure Blob Storage | APIs

4. Eminence AI - Student Exam Portal

Role: Team Lead & Full-Stack Developer

Key Contributions:

- Managed the development team and admin module.
- Built exam portal with AI-driven test preparation.
- Developed UI with Angular 16 and backend with Node.js.
- Implemented Stripe payment gateway for transactions.
- Deployed on AWS (EC2, S3) and managed SSH/SCP operations.

Tech Stack: Angular 16 | Node.js | MongoDB | AWS | Stripe

5. Multi-Tracking System - Production Monitoring

Role: Team Lead & Full-Stack Developer

Key Contributions:

- Led team and developed an End-to-End Production Monitoring System.
- Tracked pump & part movement from order to dispatch.
- Managed Bought Out, Rough Casting, and ROD item workflows.
- Developed UI with Angular 12 and backend with Node.js.
- Deployed on AWS (EC2, S3) and managed SSH/SCP operations.
- Utilized Zoho Books for GST invoicing.

Tech Stack: Angular 12 | Node.js | MongoDB 4.0 | AWS | Zoho Books

Personal Details

- Father's Name: Mr. P. Alagesan
- Date of Birth: 26th May 1997
- Nationality: Indian
- Religion: Hindu
- Marital Status: Married
- Languages Known: English, Tamil
- Permanent Address: 60, Puliyadi Street, Thisaiyanvillai - 627657

Declaration

I hereby declare that the information provided above is true to the best of my knowledge. I am a hardworking, ambitious, and dedicated team player, eager to contribute effectively to any organization I join.
