📍 India

PROFESSIONAL SUMMARY

Full Stack Developer with 3.5+ years of experience delivering scalable web and mobile applications using Angular, React, React Native, Node.js, and Spring Boot. Proven ability to build high-performance REST APIs, real-time systems, and data-driven dashboards. Experienced in end-to-end development, from responsive UI to scalable backend architecture, with a focus on performance, reusability, and production-grade solutions.

TECHNICAL SKILLS

Frontend:	HTML5, CSS3, JavaScript (ES6+), TypeScript, React, React Native, Next.js, Angular, Tailwind CSS, Bootstrap,
Backend:	Node.js, Express.js, Java, Spring Boot, Python, REST APIs, JWT, OAuth
Databases:	PostgreSQL, MongoDB, MySQL, Supabase
Testing:	Vitest, Jest, Cypress
Tools:	Git, Docker, AWS, Linux, Ollama, VPS, Nginx, Posthog

PROFESSIONAL EXPERIENCE

Shinelogics

Aug 2025 – Present

FULL-STACK DEVELOPER

- Developing scalable React-based applications with modular architecture and predictable state management.
- Implemented Redux Toolkit slices and async logic to standardize API handling and reduce redundant network calls.
- Improved UI performance through memoization, lazy loading, and optimized component re-rendering.

MODULE LEAD (JUN 2025 – JUL 2025)

- Led a development module, reviewing front-end architecture decisions and enforcing code quality standards.
- Coordinated delivery of production features across cross-functional teams.

FULL STACK DEVELOPER

- Built dynamic dashboards and role-based interfaces using React and Angular.
- Designed reusable components and centralized state management strategies to handle complex UI flows.
- Implemented optimized API integrations with filtering, pagination, and sorting for large datasets.
- Migrated legacy front-end modules to modern architecture for improved maintainability and performance.

KEY PROJECTS

Music Gear Marketplace Platform

Next.js, TS, PostgreSQL

- **Frontend & Backend:** Developed a responsive layout for various screens and handled complex image logic (uploads, optimization, custom carousel).
- **Performance:** Implemented TanStack Query for efficient client-side state management, SEO, and reduced API calls.
- **Features:** Built system chat messaging improvements and created dynamic email templates for notifications.

Agri-Tech ERP & POS System

Node.js, Angular, React,

- **Backend:** Built efficient APIs with filtering/sorting and integrated WhatsApp for delivery notifications.
- **Frontend:** Developed role-based module access (Admin, Manager, Sales) and managed Order Management.
- **Migration:** Spearheaded the migration of the POS module from an older Angular version to the latest version.

GST Compliance SaaS Platform

React, Node.js, MongoDB

- Developed efficient RESTful APIs supporting advanced filtering, pagination, and sorting for large datasets.
- Managed efficient UI state using Context API and integrated WhatsApp/Email templates for user communication.

Meal Kit Subscription Service

Angular, Spring Boot, Stripe, PostgreSQL

- **Secure Payments:** Integrated Stripe for handling subscriptions and single-time payments.
- **Security:** Implemented Spring Security for robust authentication and authorization.
- **Frontend:** Created dynamic forms and ensure a seamless user experience using Angular.

AI-Powered EdTech Platform

MEAN Stack

- Architected the front-end layout for different user roles and dynamic forms; Developed timing-based exam module.

Movie Location Discovery Platform

React, Spring Boot, MySQL

- **Deployment:** Managed complete deployment on VPS, including SSL certificate configuration, database setup, and Nginx.

EDUCATION & CERTIFICATIONS

B.E. Mechanical Engineering

2018 - 2022

Arunai Engineering College

JS Algorithms & Data Structures

Mar 2023

freeCodeCamp
